Requirements

Before you begin, ensure you have met the following requirements:

- Android Studio or VS Code
- Flutter SDK

Flutter & Android Studio Installation

You will need Android Studio and Flutter setup to run the project on your computer. If you don't have Flutter setup on your computer, follow the documentation below to setup it.

- Step-by-Step Guide to Installing Flutter and Dart on Windows
<https://medium.com/@sahaj.blup/step-by-step-guide-to-installing-flutter-and-dart-on-windows-b30a631e7583>

Run Flutter Project

- Download or clone the repository from Codecanyon
- Step by Step Video Guide here..
<https://youtu.be/eGLiOLzoP9c?si=gSydBICWBexajNKK>

Change Project Name

- Step by Step Video Guide here..
<https://youtu.be/eGLiOLzoP9c?si=yn4dxiCiviwUPMJB>

Change App Logo

- Step by Step Video Guide here..
<https://youtu.be/zqtd4u3mdzA?si=qEpU-B6ufdH5QhU0>

Change App Name

The root of the project file is shown for renaming the app

- Project File > android > app > src > main > AndroidManifest.xml

then open this AndroidManifest.xml File and find (android:label="Delivery Boy") in Line 7.

You can replace “Delivery Boy” and Enter Your App Name.
